TECHNICAL SKILLS

- C
- Python
- Django
- Computer Networks
- C++
- HTML,CSS and JS
- Data Structures
- Operating System
- Java
- MERN stack
- MYSQL
- Git and GitHub

INTERNSHIP

Wisdom Sprouts

Software Engineering Intern

- Completed an internship focused on MERN stack development, where I built a full-stack project using MongoDB, Express.js, React.js, and Node.js.

EduSkills

Python Fullstack

- It is an online internship, gaining hands-on experience in developing web applications using front-end, back-end, and database technologies.

PROJECTS

Rasoi Diaries (Recipe Sharing Platform)

Live

Technologies: HTML, CSS, JS, React, Express, NodeJS, MongoDB.

- Developed a recipe-sharing platform allowing users to explore, upload,like and manage recipes with images, categories, and user authentication.

Real Estate Platform

Live

Technologies: HTML, CSS, JS, React, Express, NodeJS, MongoDB.

- Designed a real estate listing platform where users can browse, filter, and post property listings with images, descriptions, and price details.

Backed Artifacts Cake Shop Website

Technologies: HTML, CSS, JS, Django.

- Built an e-commerce website for a cake shop, integrating a user-friendly interface for browsing cakes, placing orders, and managing inventory.
